

SOREX wirelessKey 4.0

Door unlocking/opening with mobile phones, automatic hand-held transmitters & RFID media

SOREX wirelessKey 4.0 is ideal for easy electronic access management to corporate buildings, offices and storage areas and allows time-dependent access for up to 2.500 users. Doors can either be operated via a mobile phone, an automatic hand-held transmitter or RFID media. Access management is conveniently supervised via network-compatible management software. SOREX wirelessKey 4.0 can be combined with any electronic lock and is surface-mounted next to the door; the relay is securely fitted into the interior wall. The built-in LAN ports provide connection to an existing corporate network.

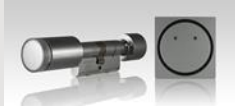

Article-No	Product Name	Short Description
WK401001	SOREX wirelessKey 4.0 incl. LAN- & RFID-Interface	Electronic access control system; especially for the business sector; allows access via RFID media; network compatible; access administration via management software

Technical Details

- Number of manageable opening media: Up to 2.500 smartphones, automatic hand-held transmitters, RFID cards, RFID keychains
- Detection range: Adjustable (short, medium, large, maximum)
- Relay switching duration: Adjustable (3 seconds by default)
- Interfaces: LAN and Micro-USB, optional: WLAN
- Supply voltage: 9-12 V AC or 9-24 V DC, optional PoE
- Relay output: 2A 30V
- Operating temperature: -20°C to +60°C
- Dimensions: 136 x 70 x 20 mm
- Colors: White

Additional Products

Article-No.	Product Name	Short Description	
multiple Packages	SOREX management software	Is used to manage one or multiple wirelessKey 4.0.	
WK402051 ZB204010 ZB205012	Manual hand-held transmitter RFID-card RFID-keychain	Miscellaneous kinds of opening media, can open the wirelessKey 4.0 if configured with the software.	
WK402033	SOREX wirelessKey flush mount socket (stainless steel)	Flush mount socket made for the wirelessKey 4.0, composed of a front cover and a socket part
